About me

Experienced and confident in using Linux-based systems, specifically via CLI (grep, bash, service management). I make bug-reports for apps that I regularly use. [Here](#) are some links to these bug-reports.

Familiar with software development and software testing principles. Capable of writing a checklist, test-case, or test-plan. Test-case examples are also in [my portfolio](#).

I know how these technologies function:

- HTTP (methods, status codes)
- SOAP (WSDL and XML syntax)
- REST (distinctions from SOAP)

I work in:

- Postman, SoapUI, curl
- git (commit, pull)
- DevTools
- MySQL (WHERE ... IN, INNER/RIGHT/LEFT JOIN)

Experience

- 2020-2021 – English-Russian Translator

Languages

- Russian – Native
- English – C1 – Advanced
